

PPG SIGMADUR™ ONE

Unique, durable single-pack urethane polyester finish coat with excellent aesthetics

Our single-pack finish saves time and reduces mistakes during application, making it ideal for onboard maintenance.

PPG SIGMADUR™ ONE

Unique, durable single-pack urethane polyester finish coat with excellent aesthetics

Single-pack finish – ideal for onboard maintenance

We understand the need to improve efficiency for onboard maintenance while retaining a vessel's high-quality finish and protection.

The PPG SIGMADUR ONE finish coat delivers the ideal solution. Instead of a typical two-pack finish, it comes in one pack, so no mixing is required, which saves time and reduces mistakes during application. Compatible with existing aged coatings, it is easy to apply, quick drying, and provides durable performance, making it a unique product in the market.

Outstanding aesthetics – supplied around the globe

The high-gloss PPG SIGMADUR ONE coating offers good color and gloss retention and comes in an extensive range of colors available through our color network centers.

We can also match to the color standards of any corporate livery or your preferences using our modern color identification computer and an advanced blending process. PPG color network centers are in all key ports along the main trading routes, so we can supply sea stock paints when and where you bunker your vessels.

A unique solution for decks, interiors, superstructures and topsides

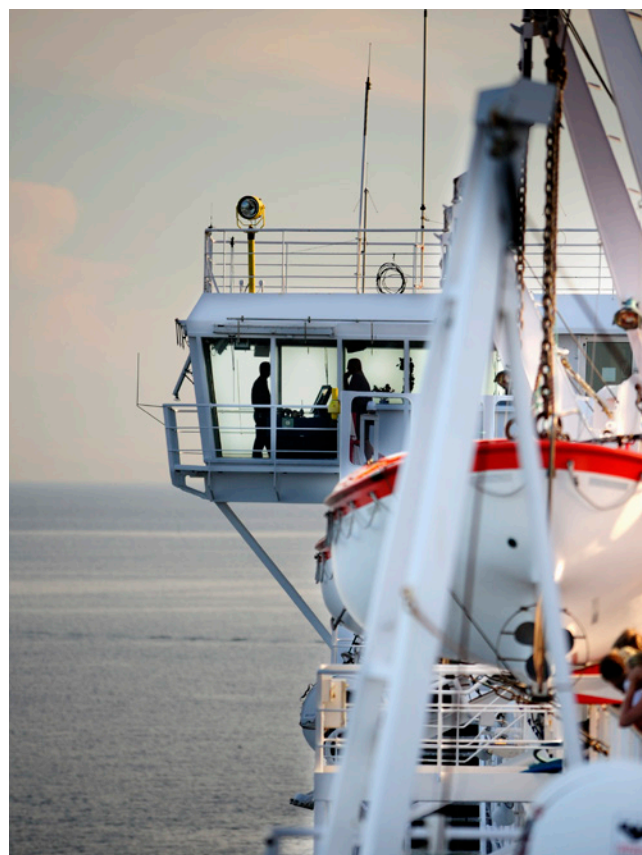

The user-friendly and durable PPG SIGMADUR ONE finish coat is suitable for topsides, decks and superstructures, and can be applied on virtually all ship types during onboard maintenance. The system is also supported by the PPG SIGMACARE® onboard maintenance crew support package.

Features

- Single-pack, durable urethane polyester finish coat
- Easy to apply on decks, interiors, superstructures and topsides
- Long shelf life – at least 24 months
- Overcoating time 8 hours at 20°C (68°F), 15 hours at 5°C (41°F)
- 53% volume solids supports high-build application
- Good mechanical properties
- Compatible with existing aged coatings

Benefits

- Single-pack finish – more user friendly for onboard maintenance
- Good color, high-gloss and durable performance – provides good ship aesthetics
- Easy to apply by brush or roller – greater efficiency
- Quick drying – ideal for onboard maintenance with a faster return to service
- Smooth film – easy to clean
- Available in any color, supplied through our global color network centers – a perfect color match
- Supported by PPG SIGMACARE maintenance crew support and training package – total support

For ease of use at onboard maintenance, durable performance and good ship aesthetics – choose the SIGMADUR ONE single-pack finish.
